<b>Innovative Quality (30 Points)</b>				
Compared to competitors in its field, the idea is clearly different, better, or will cost far less	<b>10</b>	<b>6</b>	Product is similar to other products in market space.	
The problem to be solved is significant in terms of the number of people affected and the quality of the benefit produced	<b>10</b>	<b>7</b>	If the product is developed in a way that is not intimidating to non-technical people, this could be very helpful for those with mobility issues.

<b>Additional Comments</b>			Waste Management has a bin that is picked up by the truck, rather than being picked up by workers. It is unclear how this robot would fit into that bin design. Payroll is not included in operating budget for years 1-3 but it is mentioned in break-even analysis.

<b>Innovative Quality (30 Points)</b>				
Compared to competitors in its field, the idea is clearly different, better, or will cost far less	<b>10</b>	<b>5</b>	The company has identified that there is no product offering direct competition, but assumes this product can be manufactured and sold at a \$4,000 price point without justification. Pricing for smaller task robots is not a good measurable given the load bearing/terrain navigation capabilities that will be required of TaskDroid.

<b>Commercialization Plan (30 Points)</b>				
Product development has been initiated.	<b>5</b>	<b>1</b>	A product has been conceptualized but roughly half of the requested grant funds would go towards minimum viable product development, which has not yet been initiated.	
A prototype is available and has been tested.	<b>5</b>	<b>0</b>		
A company has been established.	<b>5</b>	<b>0</b>	The applicant says the company will soon be a corporation and that incorporation is a goal. Currently it appears as though no company has been established.	
A patent application has been filed or granted.	<b>5</b>	<b>0</b>

<b>Impact of Technology Commercialization Grant (20 Points)</b>			
\$15,000 will make a substantial difference to the project.	10	3	The use of funds would go towards office space and initial product development, but the applicant projects 1.5M in capital investment. No strategy for raising those funds has been given.
Local publicity will help the company significantly.	5	2	
The company will foster economic development (job creation) in Leon County	5	1

<b>Additional Comments</b>			The problem to be solved is novel but the idea seems to really be in it's infancy stage and the price point for a robot that can accomplish the task would seem to limit the market potential. There are companies that now advertise taking trash out as a service ( <a href="http://www.trashday.co">http://www.trashday.co</a> ) and while they seem to be in more densely populated areas, expansion in this area would present significant competition given the low cost for the service.
