Innovative Quality (30 Points)				
Compared to competitors in its field, the idea is clearly different, better, or will cost far less	10	2	Very little background given on existing competitors and how they differentiate themselves.	
The problem to be solved is significant in terms of the number of people affected and the quality of the benefit produced	10	8		
The technology is potentially disruptive or very risky, but also of potentially high reward if successful.	10	10		
Sub-Total	30	20		
Commercialization Plan (30 Points)				
Product development has been initiated.	5	5		
A prototype is available and has been tested.	5	5		
A company has been established.	5	5		
A patent application has been filed or granted.	5	5		
The commercialization strategy is logical and feasible.	5	3	Missing financial information	
The management team has the expertise to execute the commercialization plan.	5	3	I would like to see an industry veteran with sales contacts for their potential clients.	
Sub-Total	30	26		
Impact of Technology Commercialization Grant (20 Points)				
\$15,000 will make a substantial difference to the project.	10	0	It looks like they need to raise \$10MM, so \$15K isn't very much.	

Local publicity will help the company significantly.	5	0	Their audience is not local
The company will foster economic development (job creation) in Leon County	5	3	Not clear if the jobs created will be located locally
Sub-Total	20	3	
Image and "Gut Feel" (20 Points)

Additional Comments			This is a strong applicant. There are elements of risk however the potential rewards could be very significant. The worldwide market sector is massive and the technology is an extension of intellectual property developed through grant research. Moving forward the company will need to continue to secure it's rights to IP – including the "assignment of rights" and any additional IP created through it's research partners and agencies. There are many details missing from the financial projections – including the use of proceeds for the \$1M in seed funding as well as the reference to a \$10M Angel or "A" round of funding. This technology commercialization fits the mission of the Authority quite well.
