Having seen this company in the past I think it's in a much better place than in the past. For the first time I understand the exit. The presentation was too fast for me to keep up but he did great with the question and answer period. I see the vision and I see the need, but the company's pathway to get there was unclear.

I love this idea and the product, I think there is a market, but I'm not clear about the business model.
